Yes we are.

It was my fault.

I understood it was a draft page because John gave me a different URL that the one we had been using.

But I was wrong. He just gave me that address so he knew I would see the changes.

It's not made in the webcms so there are NO drafts.

It is my fault for not understanding.

Wait, what?

It wasn't cleared for live. Please remove Spanish. We need to get this approved. It's a highly visible page

Since it is on the live server, it got sent over to Akamai on the quarterly hour rsync process automatically.

John can still edit if you like, but it out there.

“The only thing that I still need to look at if some of those PDFs have PDF pages.”

I don't know what that means.

But I did check that the 8 pdfs listed on the list are all linked to from the one page on the archive list.

Yes, Susan

That is accurate. The only thing that I still need to look at if some of those PDFs have PDF pages. Give me 20 minutes to check that.

2. Purge the cache and re-publish that page
3. Take the following .html pages and redirect the URLs to the above signpost page:

As soon as I publish the Spanish PR, I'll translate the Spanish text that will appear on archived pages; <https://www.epa.gov/sites/production/files/signpost/cc.html>

And OEI may proceed to archive these pages shortly after that.

I believe that by 3:30 at the very latest the archiving process may begin.
